PROFILE

As a Full Stack Developer with nearly 6 years of experience, I've honed my skills in both front-end and back-end technologies. My journey is marked by maintaining a positive "can do" attitude and dedication to continuous learning to become a better version of myself. Thriving in Agile environments, I excel in delivering innovative solutions that meet evolving user needs.

SKILLS

Programming Languages: C#, JavaScript, SQL

Web Technologies and Frameworks: ASP.NET Core, ASP .Net, Web API, Node JS, Microsoft Azure, HTML5, CSS, Sass, J Query, React, Bootstrap, Express JS, SQL Server Integration Services (SSIS), X Unit, Document Object Model (DOM) APIs, User Authentication, Oath and JSON

Tools: GIT, Postman, Heroku, SOAP UI, JIRA, Pivotal Cloud Foundry (PCF), Octopus, TeamCity, Team Foundation Server (TFS), Octopus, Fiddler, Swagger, SVN, WAVE, Chrome Lighthouse and Version One.

Databases: MS Access, Oracle DB2, MS SQL Server, MYSQL

PROJECTS

Full Stack Developer | [Reflectify](#)

SEP 2024, BRAINSTATION CAPSTONE

- Designed and developed **Reflectify**, a full-stack web application using React, Bootstrap, JavaScript, Node.js, Express, and MySQL to help users track moods, write journals, and view emotional insights. Implemented features like data visualization for mood trends and enhanced user experience by integrating AI, responsive design and adding animations.

Front End Developer | [TELUS x BrainStation Challenge](#)

SEP 2024, Industry Project

- Implemented a **Personalized Stream Bundle** solution, enabling users to select up to 5 TV shows, reducing costs and simplifying choice. Implemented features using **React** & utilized Agile methodologies to ensure timely delivery.

EDUCATION

BrainStation | Diploma, Software Engineering

JUL 2024 - SEP 2024, TORONTO, CA

Acropolis Institute of Tech and Research, India | Bachelors in Engineering, Information Technology

JUL 2009 - MAY 2013

EXPERIENCE

Software Developer | Fiserv

NOV 2016 - SEP 2019

- Led the development of the ASP Convergence product, supporting 150,000 users across 23 credit unions, achieving a defect-free deployment and enhancing service delivery.
- Built and enhanced front-end and back-end components using C# and ASP.NET and React, optimizing system performance and reducing operational overhead for Fiserv integration Teams by close to 25%.
- Implemented automated testing frameworks (Selenium, API), reducing bugs and improving testing efficiency by 20%.
- Collaborated with cross-functional teams to integrate systems with other Fiserv products, streamlining operations for small credit unions.

Software Developer | Syntel

MAR 2014 - OCT 2016

- Accountable for direct client support, with a track of building sustainable relationships
- Developed new features for Humana's healthcare applications, ensuring timely delivery of enhancements that improved functionality and reduced project delivery times by 10%.
- Conducted root cause analysis on production issues, resolving them promptly and reducing system downtime by 15%.
- Collaborated closely with clients to gather requirements, ensuring solutions met their expectations and improved operational efficiency.
